DETAILED ACTION

Allowable Subject Matter

1. Claims 1-14 and 47-51 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest one or more of the limitations found in independent claims 1, 47, and 50. Specifically, Johnson teaches a method for fabricating a semiconductor light emitter. However, with respect to independent claims 1, 47, and 50, Johnson fails to teach or suggest the sequential order of depositing a photoresist; patterning the photoresist; depositing a dielectric material on the patterned photoresist; depositing a liftoff layer on the dielectric material; and removing portions of the dielectric material and liftoff layer that border the aperture area. Therefore, independent claims 1, 47, and 50, as well as all dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
